

Specification

Fingerprint Sensor

- Optical Sensor

Resolution

- 500 DPI/ 256 gray

Sensing Area

- 14 x 18 mm

Image Size

- 280 x 360 pixel

Interface

- USB

Supported O/S

- Windows XP, Vista, 7

Operating Temperature

- 0 - 55°C

Optional Humidity

- 20%-80%

Color

- Black

USB Cable

- 150 cm

Weight

- 0.24 kg

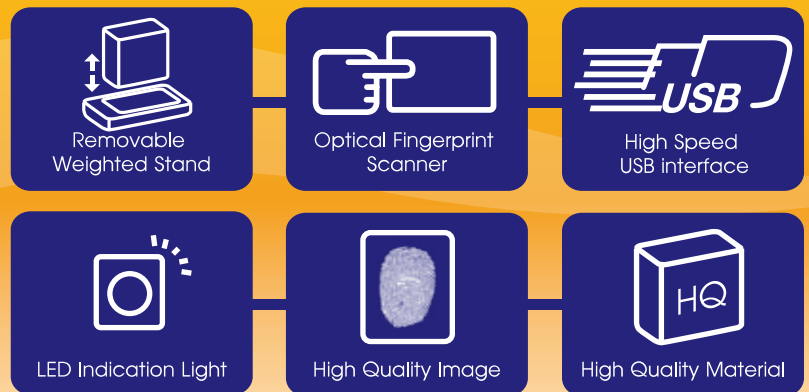

Dimension (WxHxD)

- 53 x 80 x 66 mm

VS4000

Desktop USB Fingerprint Scanner

Advanced Features

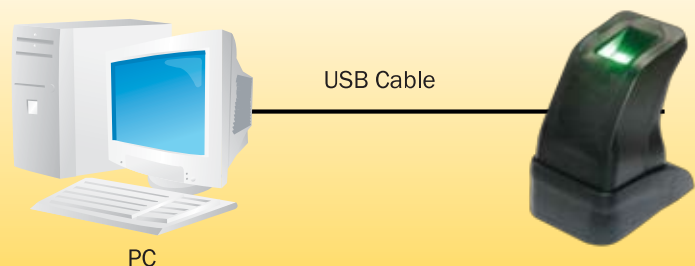

What is VS4000

Vigilance VS4000 is the latest desktop USB fingerprint reader. It is designed based on high quality optical sensor which provides high quality images for both registration and identification purposes.

VS4000 is user-friendly and well accepted by users with its removable weighted stand and high quality material. Images captured by the reader will be calibrated and be encrypted before it is sent to any application software.

It is highly recommended for System Integrators to apply VS4000 as central enrolment unit for network applications.
